

After a thorough product line evaluation and careful consideration, the following PCS products will be **discontinued effective May 1, 2024**. Product discontinuances are in keeping with our practice of rationalizing low demand offerings to allow room for future improvements and additions, including fresh new designs and on-trend finishes.

TIMING

The last order date for discontinued product is April 30th. Standard service and warranty terms will be honored. Please take these changes into consideration when specifying new projects. For information and direction on existing projects that specify any of the discontinued products, please contact your Account Manager/Sales Representative to discuss options.

DISCONTINUED FINISHES

SAMPLES

Sable
